

ANDIJAN STATE MEDICAL INSTITUTE 2ND OBSTETRICS AND GYNECOLOGY DEPARTMENT

Head of the 2nd Obstetrics and Gynecology Department Doctor of Medicine,

XABIBA NABIEVNA NEGMATSHAYEVA

Tel: +99891-412-33-36 **e-mail:**
negmatshayev@umeil.uz

HISTORY AND ACTIVITIES OF THE 2nd OBSTETRICS AND GYNECOLOGY DEPARTMENT

Department of Obstetrics and Gynecology, which was established for the first time at the Institute, was headed by Professor S.A. Adinsova. Since 1982, the head of the department of obstetrics and gynecology at the newly formed pediatric faculty at Andijan

City 3rd Complex was elected Mukitdinova TK.

**Doctor of medicine,
professor T.K.Mukhitdinova**

In 1991, the Faculty of Medicine was renamed into the Department of Obstetrics and Gynecology and the head of the department was Doctor of Medicine, honored medical worker of the Republic of Uzbekistan T.K. Mukhitdinova. Associate Professor of the department since 1992 - O. Yuldasheva, since 1993 - Ph.D. Associate Professor H.N. Negmatshaeva (Rakhimova). Since 2009 Associate Professor D.B. Asrankulova is the head of the department. Since January 2010, Professor T.K. Mukhitdinova has been working as a head of the 6-7- course at the Department of Obstetrics and Gynecology and pediatric gynecology.

Since 2016, the department was renamed to the Department of Obstetrics and Gynecology No. 2 and Associate Professor Negmatshaeva HN was appointed head of the department.

Current activities

The staff of the department during these years has done a lot to improve the learning process. New technologies are introduced into the learning process. More than 66 tutorials - handbooks. The department is fully equipped with modern technology. In 2001, undergraduates were taught at the department, of which 97 undergraduates graduated with excellent marks. For many years, the department also teaches clinical interns.

Scientific directions of the department

The scientific work of the department is on the topic "Epidemiology, Prevention and Prevention of Exogenous Diseases in Pregnant Women, Rehabilitation of Pregnant Women During Pregnancy and Pregnancy." At the department of the Scientific Hemostasiology Laboratory was established, and in 1992-1993 1 doctoral dissertation (TK Mukhittinova) and 5 candidate dissertations were defended (Negmatshaeva (Rakhimova) H.N., Adamova L.G., Akubova O., Asrankulova D.B., Parpieva D.A.).

Currently, Parpieva D.A. has working on her doctoral dissertation in the field of "Thrombophilia and pregnancy complications".

Assistant Turaeva G.Yu. «Optimization of pregravidic ginseng with gynecologist and anamnesis», assistant Volagjanina O.V. has defended her doctoral thesis on "Physics and Politics of Devochek and Devushek, Projevayushix in Open Source".

Maniyozova G.M. - On September 25, 2017, she defended the report on "Inflammatory Viral Infection With Antiphospholipid Syndrome (AFS) in Acute Obstetric Analgesia (OAA)."

Yusupova U.M. - - On December 27, 2019, she defended the report on "Prevention of Vospalitelnix in patients with genital herpes with VMS".

Shakirova S.M. - On November 28, 2019, she defended the report on "Prevention of Vospalitelnix in patients with genital herpes with VMS".

Nigmatshayeva A.R. - "Prognosis of the reproductive function of the genital tract. Genetic complications." Has finished patent and literature research, has published 2 articles, conducts clinical-laboratory investigations.

The staff of the department is responsible for all the treatment in the 2nd Complex, contributing to the improvement of the effectiveness and improvement of the health of mothers and children. They also work in the districts and provide practical assistance in the examination of seriously ill patients.

Achievements of the department and staff of the department

Since 2000, the department and staff of the maternity hospital have implemented the WHO program "Safe motherhood" in the Republic of Uzbekistan for the first time in the Republic of Uzbekistan. At the end of this program, the Head of the Department Professor Mukitdinova T.K. made speeches at international forums (Kyrgyzstan, Turkmenistan and Tajikistan) and participated in the International Seminar in Copenhagen (Denmark) to study the program in depth. There are 3 gifted students and 1 scientific school "gynecologist" in the department. The gifted students regularly prepare and publish thesis and scientific articles.

The department has an electronic library and contains more than 100 scientific resources. Teachers and students are used effectively in developing independent activities.

The department has become a tradition to train gifted students through clinical residency, postgraduate and postgraduate education, and to enhance the capacity of faculty members.
