

1 Department of General Practitioners
Head of the Department Professor Z.S.Salokhiddinov

Working hours: 8.00-17.00. +99890.210.54.45

Zuhriddins@mail.ru

Since 1991, the department is headed by Prof. Salokhiddinov Z.S.

The department has a scientific direction "Problems of the Epidemiology of IHD"

During this period, members of the department defended their doctoral dissertation (Z.S.Salokhiddinov),
candidate dissertation (M. Zhuraeva, D. Yusupova, G. Nazarova, B. Ganiev, G. Akhmadaliev, D. Kurbonova).

In recent years, research has been relevant in the country. Currently, there is one doctoral (D.Soliev), 6 candidate dissertations. 6 of them were completed (2011). Prepared 4 scientific papers.

In recent years, the department has been equipped with such modern technology as a slideoscope, kodoscope, computer, ecg, video recorder, TV, DVD and more for conducting classes with students

HISTORY OF THE DEPARTMENT

Currently, the named department “GP-1” was founded in 1958 under the name “Hospital Therapy” on the basis of the therapeutic department of the regional hospital under the direction of G.M. Efendiev.

In the future, the leadership of the department passed to Assoc. SH.R. RASULOV

This time at the department worked such employees as associate professor M. Ziyamkhodzhaeva and candidate medical. Science

I.F. Laufer. Also along with them worked such experienced teachers as L.L. Dimshchits, K.A. Atabekova, A.G. Sargsyants, S.S. Medvedeva, N.V. Soliboev, A.N. Kodiraliyev, M.N. Zukhritdinov, S.Z. Zainuddinov.

The scientific direction of the department was - “The study of the problem of hepatosplenomegaly in the Ferghana Valley.

At the department, the assistant A.G. Sargsyants, N.V. Soliboev conducted scientific research in this direction.

For the first time, a scientific and clinical laboratory was organized at the department.

**Since 1968, the management of the department passed into the hands of a student of
academician I.A. Cashier Associate Professor .U.A. Askarov**

At that time, such experienced clinicians as E.N.Konstantinov, Z. Arzumetov, assistants A.M. Kodiraliev, I.K. Klipachevsky joined the staff of the department.

In that year, 1 doctoral (U.A. Askarov) and 5 candidate (K.A. Atabekova, A.G. Sargsyants, M. Mamazhonov, K. Usmonov, N.P. Shaffer) works.

In 1972 - 1973, the department was headed by associate professor E.N.Konstantinov and the department was relocated to 1-2-3-
Department of the clinic ASMI.

**In 1973-1991, the department was headed by a professor
M.M. Omerov.**

Students were taught at the department not only in therapy, but also in prof. diseases and field therapy. The department was renamed the department of subordinate. At that time, the scientific direction of the department was "The study of immunological changes in cardiovascular, gastroenterological diseases, as well as in rheumatism."

Several doctoral and master's theses were successfully completed and defended. Among them, Y. Yu. Illek - doctoral dissertation, M.K. Karimov, R.Kh. Shermatova, E.O. Singer, Z.M. Kodirmatova - candidate.

In 1983, the department was divided into two parts, one of which headed by associate professor M.A. Atakhonov, and then Professor K.D. Zhalolov.

During this time, under the guidance of a professor K.D. Zhalolova was protected by 2 doctoral (A.V. Ryabchikov, M.K. Boltaboev) and 2 candidates (U.T. Dzhumaboev, N.Kh. Kodirov). The department Subordinate renamed to GP -1.

From 2012 to 2017, she headed the department Associate dotsent Zhuraeva M.A.

Since 1991, the CHAIR was led by Prof .. Z.S. SALOKHIDDINOV.

The scientific direction of the department: "epidemiology issues
Coronary heart disease. "

This time was defended by 1 doctoral (Z.S. Salohiddinov),
Candidates (M. Zhuraeva, D. Yusupova, G. Nazarova, B. Ganiev,
Akhmadaliev, D. Kurbonovalar).

In recent years, the department also conducted a scientific study devoted to one of the very urgent problems, both
in the republic and in the world - the issues of non-communicable diseases in HIV infection.

To date, 1 doctoral (D. Soliev), 6 candidate dissertations are being prepared.

In recent years, the department has been equipped with such modern technology as a slideoscope, kodoscope,
computer, ecg, video recorder, TV, DVD and more for conducting classes with students.

Teaching is conducted using new interactive pedagogical technology. Practical classes and lectures are enriched
with information from the Internet, numerous handouts, multimedia are used.
