

ANDIZHAN STATE MEDICAL INSTITUTE 2 DEPARTMENT OF OBSTETRICS AND GYNECOLOGY AND CHILD GYNECOLOGY

**Тиббиёт фанлари доктори,
кафедра профессори
Т.К. Мухитдинова**

**Тиббиёт фанлари доктори,
кафедра мудири
Х.Н.Негматшаева**

The first department of obstetrics and gynecology at the institute was headed by Professor SA Adinsova. In 1982, TK Mukhitdinova was elected head of the Department of Obstetrics and Gynecology of the newly established Faculty of Pediatrics at the 3rd maternity complex in Andijan.

In 1991, the medical faculty was renamed the Department of Obstetrics and Gynecology, and the head of the department was Doctor of Medical Sciences, Professor, Honored Medical Worker of the Republic of Uzbekistan T.K. Mukhitdinova worked. Since 1992 she has been working as an associate professor of the department, O.S. Yuldasheva, Ph.D. Associate Professor X.N. Negmatshaeva (Rakhimova) are working. Doctor of Medical Sciences, who has been working at the department since 2009. Associate Professor D.B. Asrankulova was appointed head of the department. Professor T.K. Since January 2010, Mukhitdinova has been working as a course manager at the department of 6-7 courses of obstetrics and gynecology and pediatric gynecology.

In 2016, the name of the department was changed to "2 - Department of Obstetrics and Gynecology" and Associate Professor Negmatshaeva H.N. He is the head of the department.

Current activities

The staff of the department over the years has done a lot of positive work to improve the educational process. New technologies have been introduced into the educational process. More than 66 textbooks have been created. The department is fully equipped with modern technical means. In 2001, the department began to teach masters, and 97 of them graduated with honors. Over the years, the department of clinical interns am learning h q ITIL.

Scientific directions of the department

The scientific work of the department is carried out on the topic "Epidemiology, course and prevention of extragenital diseases in pregnant women, rehabilitation of women of childbearing age during pregnancy and out of pregnancy." A scientific hemostasiology laboratory was established at the department and in 1992-1993 1 doctoral (TK Mukhitdinova), 5 candidate dissertations were defended (Negmatshaeva (Rakhimova) HN, Adamova LG, Yakubova O., Asrankulova DB., Parpieva D.A.).

currently Parpieva D.A. He is conducting research on his doctoral dissertation in the field of "Thrombophilia and complications of pregnancy."

Assistant Turaeva G.Yu. «Optimization pregravidarnoy podgotovki jenshchin s prezhevremennymi rodami v anamneze», assistant Volagjanina O.V. "Features of physical and sexual development of girls and girls, projevayushchix in the endemic." defended his dissertation,

Maniyozova G.M. - "Interaction of viral infections with antiphospholipid syndrome (AFS) in pregnant women with complicated obstetric analysis (OAA)" on September 25, 2017

Yusupova U.M.- on December 27 on the topic "Prevention of inflammatory diseases of the genitals and ginseng with VMS".

Nigmatshaeva AR - "Prognosis of impaired reproductive function in women with endometriosis" Completed patent and literature research, published 2 articles, conducts clinical and laboratory tests.

Employees of the department undertake all the treatment work in the 2nd maternity complex and make a significant contribution to improving its effectiveness, improving the health of mothers and children. They also carry out paternity work in the districts, provide medical care to critically ill patients.

Achievements of the department and its staff

Since 2000, the staff of the department and the maternity complex were the first in the Republic of Uzbekistan to implement the WHO program "Safe Motherhood" in the 2nd maternity complex, and the head of the department and staff held seminars in all regions of the country. Following the program, the head of the department, Professor TK Mukhitdinova, spoke at international forums (Kyrgyzstan, Turkmenistan and Tajikistan) and participated in an international seminar in Copenhagen (Denmark) to study the program in depth. There are 3 talented students and 1 scientific school "gynecologist" at the department. Theses and scientific articles are regularly prepared and published by talented students.

The department has an electronic library and it contains more than 100 scientific sources. Teachers and students use them effectively in the effectiveness of independent work.

It has become a tradition at the department to strengthen the capacity of professors and teachers by training talented teachers from talented students through clinical residency, master's and postgraduate courses.

Chair holder:

F.I.O.	Specialty, academic degree and title	Birth address and date	Phone	E-mail
Negmatshaeva Xabiba Nabieвна	Candidate of Medical Sciences, Associate Professor, Therapeutic Work, Physician	Andijan city 23.10.1953	+998916123336	Negmatshaev @ umeil.uz -

Chair of professors
