List of teachers of these objects:

1	Yakhudayev Eson Muzdaevich	associate professor, PhDs in Medicine.
2	Kosimova Gulnora Zulfikarovna	PhDs in Medicine
3	Nishonova Dilafruz Valizhonovna	Senior teacher
4	Karimova Odina Askaraliyevna	assistant
5	Rakhmanova Umida Hamidzhanovna	assistant
6	Tuhtasinova Mutabar Abdullaevna	assistant
7	Abdulhakova Ra`no Muhtaraliyevna	assistant
8	Holmatova Nurkhon Olimovna	assistant
9	Ashuralieva Mavluda Azimjanovna	assistant

10	Abdullaev Doniyor Bahodirovich	assistant
11	Qo`ziev Diyor Voxidjonovich	assistant

SCIENTIFIC DIRECTION OF THE DEPARTMENT:

Based on the basic teaching staff and content of the subjects, the department conducts research in the following areas:

1. Respiratory diseases in children
2. Pathogenetic, therapeutic and diagnostic aspects in children with allergic diseases

SUCCESS DEPARTMENT

In the foreign and national press in magazines and collections of scientific conferences published more than 100 research papers.

DIRECTION "MENTOR AND PUPIL"

For each subject in the department, along with gifted students, the SSS (Student Scientific Society) is organized, the form of which is enshrined in the Charter of the Mentor and Student department. All employees of the department work in SSS: additional classes are conducted in the subject, on the basis of the research done, articles and theses on the results of the scientific activities of gifted and active students are published in the press.

Participants in the SSS become also participants in the local, republican and international Olympiads. The department organized the work of the Scientific Club "Young Pediatrician", whose leaders are experienced teachers of the department. The work is carried out according to the plan, approved by the department and vice-rector for scientific work and innovation of the ASMI

TEACHING AND METHODOLOGICAL WORK OF THE DEPARTMENT

Based on the modern requirements of higher educational institutions of Uzbekistan, the purpose of which is to improve the quality of education, new teaching and information and communication technologies have been introduced into the educational process. Pedagogical technologies that are successfully used in practical classes and lecture classes give a positive result.

In practical classes, students and teachers use computers, laptops, tablets, i.e. information devices, which also give the efficiency of learning, strengthen self-study, develop practical skills and successfully use them in practice.

The department has published 4 textbooks on relevant subjects, more than 150 scientific articles and abstracts.
