

**ANDIJAN STATE MEDICAL INSTITUTE THE DEPARTMENT OF  
“ PEDIATRIC SURGERY”**

The head of department. Phd associate professor  
Mirzakarimov Baxrom Xalimjanovich

**Work time:** 8:00 – 15:00.

**Tel:** +99891-606-12-73

**e-mail:** [baxromjon1973@umail.uz](mailto:baxromjon1973@umail.uz)

**History and activity of the Department of Pediatric Surgery**

The creation of the Department of Pediatric Surgery is directly linked to the order of the Ministry of Health of the Soviet Union on “Improving the services of surgery for children” in 1972. Until 1972, pediatric surgery conducted its activities at the department of the “2-faculty surgery” of the Andijan State Medical Institute. In August 1972, on the order of the Rector of the Academy of Medical Sciences, the course of “Pediatric Surgery” was founded. Head of the course was appointed Associate Professor Rakhimov Sultan Rakhimovich. One should especially note the contribution to the development of the department, young assistants, such as Akbarov Nosirjon Akbarovich, Kurbanov Abdukahkhor Kurbanovich and Rasulov Yorkyzhon Muhammadaminovich. A great contribution to the development of the department was made by assistant Inamova Svetlana Tursunkhadzhaevna.

1982 Associate Professor S.R. Rakhimov defended his doctoral thesis on the topic “Surgical treatment of chronic hemogenic osteomyelitis in children” at the Leningrad State Medical Institute under the guidance of Professor G. A. Bairov. In 1991, by increasing the volume of work, the department was expanded to pediatric and for medical faculties. Head of the Department of Pediatric Surgery for medical faculties was appointed Klichev Bakhtiyor Mirzazhanovich.

Practical and scientific research on current topics such as: “Purulent-septic diseases in children”, “Anorectal malformations”, “Chest deformities in

children”, “Portal hypertension” and “Urogynecological diseases” began to give results. Under the supervision of BM. Klicheva Assistant Chair Rakhimov B.S. defended his PhD thesis. After the sudden death of Professor B.M. Klichyov, Adkham Anvarovich Gafurov was appointed head of the department.

A. Gafurov in 1991 under the leadership of Professor A. I. Lyunushkin stitched up his thesis on the topic “Rehabilitation of children with bilateral chronic nonspecific inflammatory lung diseases” A. A. Gafurov continuing his academic career in 2009 under the guidance of Professor M. M. Aliyev defended his doctoral thesis on the topic “Surgical correction of disorders of organ blood and lymph in children with liver cirrhosis”

In 2004, the departments of pediatric surgery of both faculties were merged, and Assistant Professor Rakhimov Bobur Sultanovich was appointed as the head of the department.

In 1999, B. S. Rakhimov at the V. Vakhidov Republican Surgical Scientific Center under the direction of B. M. Klichev defended his thesis on the topic “Comparative Evaluation of the Effectiveness of Complex Treatment of Calculous Pyelonephritis in Children”. In 2014, the department was renamed to “Pediatric surgery, anesthesiology-resuscitation”

In 2004, G.U. Tychiev at the Republican Surgical Scientific Center named after V. Vakhidov under the direction of MM Aliyev defended his PhD thesis on “Hemodynamic aspects of vessel-shunting operations for liver cirrhosis with portal hypertension in children”.

In 1984, under the leadership of G.A. Bairov, Zh.U. Dzhumabayev defended his thesis on the topic “Surgical treatment of funnel chest deformity in preschool children”

In 2009, A.A. Gafurov at the Russian State Medical University, under the leadership of M.M. Aliyev, defended his doctoral dissertation

The department is located in two bases, one of which is located in the Andijan branch of the RNICEMP and the other operates in a multi-disciplinary children's hospital.

1986 A.K. Kurbanov, under the guidance of SRRakhimov at the 2-nd Moscow Medical Institute, defended his thesis on the topic “Prediction of clinical course variants and outcomes of newborn phlegmon”

In 1999 N.A. Akbarov at the Republican Surgical Scientific Center named after V. Vakhidov under the leadership of S.R. Rakhimov defended his thesis on the topic “Surgical tactics in bilateral nephrolithiasis in children”.

In 1990, M.Ya. Allaev at the Tashkent State Medical Institute under the leadership of I.K. Kasimkhadzhaev defended his thesis on the topic “Anatomy

and topography of the thymus gland in humans in ante-and postnatal ontogenesis”

In 2009, Sh.O.Toshboev under the leadership of A.V.Alimov at the Tashkent Medical Academy defended his thesis on the topic “Optimization of diagnostic methods and therapy for acute circulatory disorders in young children”

In 2010 B.Kh. Mirzakarimov at the V. Vakhidov Republican Surgical Scientific Center under the direction of Kh.A. Akilov defended his doctoral dissertation on the topic “Optimization of methods of diagnosis and correction of the chest in children with its funnel-shaped deformation”;

In 2019 K.S.Yulchiev at the V. Vakhidov Republican Surgical Scientific Center under the direction of Kh.A. Akilov defended his doctoral dissertation on the topic “Optimization of methods of diagnosis and correction of the chest in children with its funnel-shaped deformation”;

In 2019 at the Republican emergency Scientific Center under the direction of Kh.A. Akilov defended his doctoral dissertation on the topic “Optimization diagnostic methods of the adhesive bowel obstruction ”;

Today head of the department is Mirzakarimov Bahrom Halimzhanovich.

**Department staff**

### List of department professors and teachers

№	Ф.И.О.	Научная степень и должность
1	Mirzakarimov Bahrom Khalimzhonovich	Head of Department Candidate of Medical Sciences Dotsent
2	Gafurov Adham Anvarovich,	MD, associate professor
3	Kurbanov Abdukahkhar Kurbanovich	Ph.D., Associate Professor
4	Akbarov Nosirzhon Akbarovich	Ph.D., Associate Professor
5	Dzhumabaev Zhurakul Usmanovich	Ph.D., Associate Professor
6	Allaev Mamasoli Yakhyaevich	Ph.D., Associate Professor
7	Юлчиев Каримжон Салимжонгович	PhD Assistant
8	Ибрагимов Жасурбек Хабибжанович	PhD Assistant
9	Мамажонов Умиджон Шокирович	Senior Lecturer
10	Abduvalieva Chulpanoy Muhammadjanovna	Assistant
11	Khalilov Shukurullo Kuchkarbayevich	Assistant
12	Bozorov Shavkatzhon Tozhiddinovich	Assistant
13	Kadirov Komiljon Zakirjanovich	Assistant
14	Yuldashev Muzaffar Abduvakhobovich	Assistant
15	Yulchiev Karimjon Salimzhongovich	Assistant
16	Ketmonov Alisher Ganijonovich	Assistant
17	Turakulov Zoirjon Shokirzhonovich	Assistant
18	Karimov Doniyor Karimjonovich	Assistant
19	Isakov Nuriddin Ziyiddinovich	Assistant
20	Abdurakhmanov Farrukh Saidazimovich	Assistant

Today, B.Kh. Mirzakarimov and Ph.D. thesis Yulchieva are in the process of completion. New methods of shunting operations in portal hypertension in children as well as reconstructive plastic surgery on the chest, genitourinary system, abdominal cavity and abdomen perineum were introduced into practice by members of the department.

### **Subjects taught in the department**

Introduction to Medicine-1 course of pediatric and medical faculties

Pediatric surgery - 4 course pediatric and medical faculties

Hospital pediatric surgery - 6 course of the pediatric faculty

Pediatric surgery - 5 course of medical and medical and pedagogical faculty

### **Students on practical training**

### **Process of practical training**
