DEPARTMENT OF GENERAL HYGIENE

**Head of the DepartmentCandidate of Medical Sciences,
Associate Professor Manzura Habibovna Salieva**

Time work: from 8 a.m. to 5 p.m.Phone number: +998 91 612- 65-02
adtiumumiygigiyena@umail.uz

The department was created in September 1958. The first head of the department was rector professor, MD W.A. Alimov (1910-1964gg.). From May 1963 to August 1981, the department was headed by a famous scientist, rector, candidate of medical sciences, professor Yu.A. Atabekov. Yu.A. Atabekov worked as the People's Commissar of Health of Uzbekistan, the head of the city's health department in Tashkent, the head of the department of the Institute for Advanced Medical Studies, the founder of eastern traditional medicine.

Professor Yu.A. Atabekov, founder of the ASMI Clinic, opened a faculty of pediatrics and a faculty of advanced training for doctors. He led and created a bust of the great Abu Ali Ibn Sino, who received world fame. Professor Yu.A. Atabekov left behind many students who continued his work: M.A. Atakhanov, A.Kh. Khodzhakov, N.V. Zhukovskaya-Zhdanova, M.M. Omerov, M.Kh. Salieva, K. .M. Jalalova, A. Mamatokhunova and others. At the department under the guidance of Professor Yu.A. Atabekov, 11 candidate and 1 doctoral dissertations were defended: associate professor M.A. Aripov, associate professor M.A. Atakhanov, candidate of medical sciences A.Kh. Khodzhakov, associate professor N.V. Zhukovskaya-Zhdanova, professor M.M. Omerov, associate professor M.Kh. Salieva, associate professor K.M. Zhalalova, associate professor A. Mamatokhunova. Professor Yu.A. Atabekov was awarded government orders and medals.

In 1960, only 2 assistants worked at the department, in 1965 - 5 people, including 2 associate professors, in 1980 - 2 associate professors and 7 assistants.

From 1981 to 1985 The department was headed by associate professor M.A. Aripov (1925-1997). From 1986 to 1991 The department was headed by MD, professor D.G. Rozin. At the department under the guidance of Professor D.G. Rozin, 3 candidate dissertations were defended: candidate of medical sciences, associate professor S.M. Babich, candidate of medical sciences M.M. Mirmuminov and candidate of medical sciences, associate professor Z.A. Turakulov. Professor D.G. Rozin is the author of over 300 scientific papers and 20 rationalization proposals.

From 1991 to 1998 The department was headed by Candidate of Medical Sciences, Associate Professor A. Mamatohunova (1944-2014).

The Department of General Hygiene was organized in September 1958. The first head of the department was candidate of medical sciences, associate professor A.R. Razikov (1928-1993), who headed the department until 1983. From 1983 to 1998 The department was headed by Ph.D. Associate Professor S.Kh. Madaminov, who is the author of over 230 scientific papers. Senior teachers worked at the department: M.S. Saatov, U.S. Sotvoldiev, R.I. Mirzaeva, M.N. Nizamov.

In 1999, the departments of general and social hygiene came together and got the name: department of general and social hygiene, management of the healthcare system. From 1999 to 2002 The department was headed by Ph.D. Associate Professor M.N. Nizamov (1944-2002). Assistants also worked at the department: S.T. Nasirov, M.M. Dadabaev.

From 2002 to 2003 The department was headed by candidate of medical sciences, associate professor A.Mamatokhunova (1944-2014). FROM

2004 to 2007 The department was headed by Ph.D. Associate Professor M.T. Butabaev - author of over 100 scientific papers and 14 guidelines, 15 rationalization proposals.

From 2007 to 2012 The department was headed by MD, associate professor M.X. Salieva. Associate Professor M.X. Salieva author of over 420 scientific papers and over 80 rationalization proposals.

From 2012 to 2016 The department was headed by Ph.D., associate professor S.M. Babich. Associate Professor S.M. Babich is the author of over 320 scientific papers and over 30 rationalization proposals.

From 2016 to 2017 The department was headed by a senior lecturer K.M.Yusupov. K.M.Yusupov is the author of over 120 scientific papers and over 35 rationalization proposals.

Now the department is headed by MD, associate professor M.Kh. Salieva.

Below the following faculty of the department works in other departments of the institute and in medical institutions: prof. M.R. Mamadiev, Associate Professor T. Saidullaev, prof. A.F. Ikramov, Associate Professor M.N. Nasirov, A.Sh. Ziyaev, L.D. Siddikova, R. Rakhimov, M. Isakov, Z. Khoshimova, N. Isabaev, D.K. Baltabaev, G.A. Azimov, S Ergashbaeva, K.Abdupattaeva, R.A. Minavarov, tfd, associate professor A.A. Abdufattaev (1961-2017).

In 2007-2009 at the department, according to the Decree of the President of the Republic of Uzbekistan, advanced training on the management of medical institutions of the heads. doctors, their deputies of three regions of the Ferghana Valley.

Currently, the following faculty is working at the department: associate professor M.Kh. Salieva, senior lecturers: K.M. Yusupov, S.S. Kholmiraeva, M.M. Mirzaev, G.K. Usmanova, assistants: H.M. A.Sh. Ziyaev, M.R. Umurzakova.

Classes are held at the department in Uzbek, Russian and in some groups in English. To learn practical skills, students at the department have modern communication technologies, there is an electronic library that contains the necessary literature on subjects, decrees, laws, orders of the government and governing bodies of the Republic of Uzbekistan, sanitary standards, guidelines and others. The department signed an agreement in 2018 with the department Public Health Faculty of Medicine, Osh State University. Held and participated in 2 conferences with students. In April 2019 the department held, together with other departments of the institute, a student conference on the promotion of a healthy lifestyle. Students were awarded diplomas and gifts for active participation.

Employees of the department are actively promoting a healthy lifestyle among the population of the region and city. During the quarantine period, the department staff read over 8 lectures on the prevention of coronavirus infection on regional television (May-June 2020) and among institutions in the city and region. 2 nutritional brochures on coronavirus infection for the public have been issued.

During the quarantine period in 2020, the staff of the department conducted more than 8 lectures on the prevention of Covid-19 on regional television and organizations. In 2021, Germany, the UN World Food Committee hosted an international webinar on sustainable food security Covid-19 with the participation of D. Egamberdieva.

SCIENTIFIC DIRECTIONS OF THE DEPARTMENT

At present, the department conducts research to study: “The influence of external factors on the health of the population of the Republic of Uzbekistan”. In recent years, 3 teaching aids, over 145 methodological instructions, 2 patents, over 450 articles and abstracts, 1 monograph have been issued by the department staff. There is a scientific student group at the department: “Young cadres are the pillar of the future.” Over 60 rationalization proposals have been issued together with students, of which 38 have been introduced into practical health care, over 50 abstracts and 30 articles have been published. Each year, the department holds student conferences. The department is actively involved in the environmental movement of the region, participates in all environmental events.

MAIN SCIENTIFIC ACHIEVEMENTS OF THE DEPARTMENT:

The department prepared 15 candidates of medical sciences. The department has over 350 sources of literature, electronic textbooks, presentations, educational films, videos. There are guidelines for all practical exercises. In all subjects, educational and methodological complexes and pedotechnologies have been created, which are constantly updated. According to the requirements of modern education, modern innovative technologies are used to improve the effectiveness of training at the department.

The department annually holds student conferences together with the medical faculty of Osh University. In 2020, the department staff took an active part in the XIII Republican Innovation Fair with the project: "Methods of introducing healthy nutrition among various population groups" and were awarded with diplomas.

During the quarantine period (April 30, 2020), under the guidance of department staff, students conducted a challenge on the topic: “Coronavirus Prevention”.
