

**Ravshanbek Raximberdievich Raxmonov-c.m.s.,
docent.**

He began his career in 1988 at the Department of Human Anatomy. Since 2006 he has been working as an associate professor at the Department of Histology. He is currently the head of the department. Associate Professor Ravshanbek Rakhimberdievich Rakhmonov in 1994 I.M. He defended his dissertation at the Department of Anatomy of the 1st Moscow Medical Academy named after Sechenov, under the guidance of

Academician MR Sapin, entitled "Puti ottoka limfi ot bronchov cheloveka v postnatalnom ontogenesis." Since 2005 he has been working as the Deputy Dean of the Faculty of Pediatrics. Currently, the Tashkent Medical Academy, under the leadership of Professor A.Yu. Yuldashev, Head of the Department of Histology, is working on a doctoral dissertation entitled "Structural basis of the system of adaptation of the kidney to postnatal ontogeny." Since 2001 he has been working as a head of the department.

MARIBJON RAXMONOVICH MAMADIEV- d.m.s.,professor.

From 1998 to 2013 he was the head of the department of medical biology, histology, medical and biological physics, medical equipment and new technologies.In 1983 he defended his dissertation at the 1st Moscow Medical Academy named after IMSechenov "On the exchange of biogenic amines and other nitrogen compounds in experimental hypercholesterolemia." He successfully

defended his dissertation. Under the guidance of Professor MRMamadiev, K. Amanov also defended his dissertation. Until 2013, MRMamadiev was the head of the department. To date, the department has defended 2 doctoral dissertations (GN Khaimov, MR Mamadiev) and a number of candidate dissertations. Employees of the department strive to make educational and methodological work to meet the needs of modern students. The head of the department, Professor MRMamadiev made a great contribution to the training of young teachers. At the initiative of Professor MRMamadiev, a scientific school "Synergetics" was established at the department. , Occupying 2.3 places.

Xusniddin Maxmudovich Aliyev-c.m.s.,docent.

From 2013 to 2014 he worked as the head of the department.

Candidate of Technical Sciences, Associate Professor H.M. Aliyev began his career at the department in 1988. In 1995 he defended his dissertation on "Structural and functional features of the mucous membrane of the small intestine in case of hypokinesia." He is now a teacher-student

He has contributed to the development of histology by educating many students and masters.

Amanov Kobiljon Komilovich -c.b.s., dotsent.

He has been working as an associate professor at the Department of Medical Biology, Histology, Medical and Biological Physics, Medical Engineering and New Technologies since 1988. In 1993 he wrote a dissertation on "Features of biochemical action of paraquat on the process of oxidative deamination of biogenic amines and other nitrogen compounds." From 1994 to 2001 he worked as a deputy dean for 1-2 courses of the Faculty of Pediatrics.

From 2002 to 2005 he worked as a deputy dean of the medical faculty in 1-2-3 courses.

Saydullaev Toir Saydullaevich -c.b.s.,docent.

In 1988 he became an associate professor at the Department of Medical Biology, Histology, Medical and Biological Physics, Medical Engineering and New Technologies.

In 1986 he defended his dissertation at the Research Institute of Endocrinology and Hormone Chemistry in Moscow on the topic:

From 2001 to 2008 he was the Dean of the Faculty of Medical Pedagogy. He currently works at the Department of Medical Biology and Histology.

Roxatoy Abdullaevna Kamoldinova-senior teacher

After graduating from the Faculty of Pediatrics of Andijan State Medical Institute in 1988, now she works as a senior lecturer at the Department of Medical Biology and Histology.

Umarova Zulfizar Maxammadzokirovna- senior teacher.

In 1996 she graduated from the Faculty of Pediatrics of Andijan State Medical Institute and now works as a senior lecturer at the Department of Biology, Histology.

Yunusova Dildoraxon Dilshodovna- senior teacher

In 2006 he graduated from Andijan State University .
In 2006-2008 she graduated from the Faculty of Biology with a degree in Human and Animal Physiology. She currently works as a senior lecturer at the Department of Biology and Histology.

**Muminova Kimsanoy Tuxtasinovna-
assistant**

In 1990 she became a senior laboratory assistant at the Department of Pharmacology. Since 2001 he has been working as an assistant at the Department of Medical Biology, Histology, Medical and Biological Physics, Medical Engineering and New Technologies.

**Qurbanova Nilufar Qubijanovna-
assistant**

In 2000 she graduated from the National University of Uzbekistan, Faculty of Biological Soil Science. In 2000-2002 she graduated from the Faculty of Biology with a degree in Human and Animal Physiology. She is currently working as an assistant at the Department of Biology and Histology

**Umarova Nodira Arabjanovna –
assistant**

In 2003 he graduated from Andijan State Medical Institute. 2014-2016 Andijan State Master of Medicine, Department of Medical Biology, Histology, Medical and Biological Physics, Informatics, Medical Engineering and New Technologies of the Medical Institute.

She is currently works as an assistant at the Department of Medical Biology and Histology

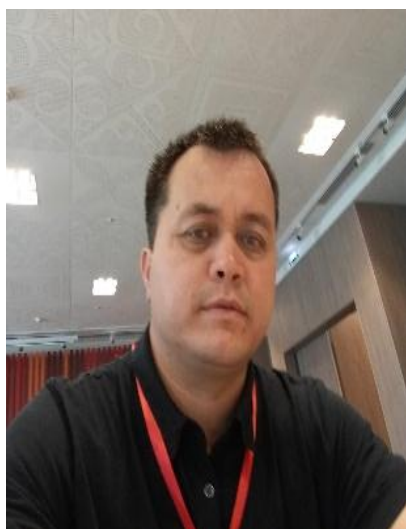

**Abdullayev Azizbek Akbar o'g'li–
assistant**

In 2017 he graduated from Andijan State University. He graduated from the Faculty of Biology. 2017 -2019 Master of the Faculty of Biology, Andijan State University. He currently works as an assistant at the Department of Medical Biology and Histology.

**Qadirov Obidjon Zakirjanovich–
assistant**

In 1994 he graduated from Andijan State Medical Institute. 1994-1996 Andijan State Medical Institute of Operative Surgery and an intern at the Department of Topographic Anatomy. 1996-1999 Andijan State Medical Institute graduate student of the Department of Operative Surgery and Topographic Anatomy. He is currently working as an assistant at the Department of Medical Biology and Histology.

**Xasanov Shuxratbek Mutallibjanovich--
assistant**

1998- 2005 Andijan State Medicine graduated from the institute. 2006 -2008 in pediatric surgery Clinical ordinator. He is currently works at the Department of Medical Biology and Histology

Kapizova Dilafruz Rahmonjonovna-

assistant

2005 Andijan State University Biology graduated from the faculty. 2018-2020 Master of Biology, Faculty of Biology, Andijan State University. She is currently working as an assistant at the Department of Medical Biology and Histology

Mamatov Hurshidbek Mirzakamol o'g'li-

assistant

In 2016 he graduated Andijan State University Faculty of Natural Sciences, Department of Biology Master of Biology, Andijan State University. He works at the Department of Medical Biology and Histology.

DEPARTMENT OF MEDICAL BIOLOGY, HISTOLOGY, MEDICAL AND BIOLOGICAL PHYSICS, MEDICAL TECHNIQUES AND NEW TECHNOLOGIES

The department, now called the Department of Medical Biology and Histology, Medical and Biological Physics, Informatics, Medical Engineering and New Technologies, was established in 1955 as the Department of Biology and was headed by Professor N.P Sokolov in 1955-1971.

He organized scientific work on topical issues of genetics at the department and directly supervised a number of candidate and doctoral dissertations. He is also the founder of the "Museum of the Department of Biology", which has scientific and practical significance at the department.

N.P Sokolov worked for many years as a vice-rector for scientific affairs at the institute and made a worthy contribution to the development of scientific work of the

team. His bright memory is kept in the hearts of professors and teachers.

Docent M.S. Soatov

professor G.N. Xaimov

In 1992-1998, the department was successfully headed by docent N.D Davlatov..

Docent N.D. Davlatov A.B Bahramov, M.M Buvabekov, assistants A.Sh. Sharipov, S.A Pomeranets, E.D. Darvishev have been working as senior teachers of the department for many years.

In this department I.A.Settarov 1966, A.D.Juraev 1969, K.K.Soliev 1970., B.Z.Ruchanskiy 1971, V.A.Kollex 1972, M.I.Rubinov 1975, O.S.Saloxiddinov 1975, A.R.Rozikov 1983, M.R.Mamadiev 1983, X.A.Karimov 1985, K.CH.CHartakov 1986, T.S.Saydullaev 1986, A.I.Pulatov 1989, K.K.Omonov defended his dissertations in 1993.

The department of histology was opened in 1956 as the department of "histology, cytology, embryology" at the Andijan State Medical Institute. Komiljon Ahmadjonovich Zufarov was appointed the head of the department and became the founder of the department..

Zufarov Komiljon Ahmadjonovich-
D.M.S, Professor. Full member of the
Academy of Sciences of Uzbekistan.
Founder of the Department of Histology
ASMI.

K.A Zufarov provided the department with qualified personnel such as associate professor AM Mahmudov, assistant OP Titova. Until 1957 he worked as the head of the department. During these years he supervised the work of more than 200 candidates of sciences and more than 50 doctors of sciences. In 1957 the department was headed by Associate Professor HMMalikov. Koloss prepared and defended his doctoral dissertation "Comparative and experimental study of some elements of the dioptric apparatus of the vertebral column." In 1966, Professor Valentina Abdullaevna Babaeva was appointed head of the department.

Babaeva Valentina Abdullaevna –D.M.S.,
professor.1966-1990 Head of the
Department.Babaeva Valentina Abdullaevna
under the leadership of the department
A.M.Mahmudov defended his dissertation in
1967 and on the basis of competition was

appointed associate professor of the department. taken. AM Mahmudov, associate
professor of the department, knew the subject of histology perfectly.

In 1967, Dehkonboy Abduraimovich Abduraimov was hired as an associate professor to increase the effectiveness of teaching at the Department of Histology.

MAKSUMOVA ZAMIRA ABDULXAKOVNA
- c.m.s. docent. From 1967 he worked as an assistant professor at the department, and from 1990 to 1996 he was the head of the department. She defended his dissertation in 1975 at the 1st Moscow Medical Institute.herself.

Olga Petrovna Titova is an assistant of the department, educated, attentive, humble, always working on herself .

In 1998, Ahmadjon Urinbaevich Mamatov was appointed head of the department.

Ahmadjon Urinbaevich Mamatov -
associate professor. From 1998 to 1999 he worked as the head of the department. In 1970 he defended his dissertation on "Study of RNA synthesis in proteins and sensory nerves of the spinal cord ganglia and motor neurons in the spinal cord."

Anvar Gaffarovich G'affarov- From 1996 to 1998 he worked as a docent of the department.

In 1998, the departments of medical biology and histology were merged to form the department of medical biology and histology, headed by b.s.d., professor M.R Mamadiev.
