SPIRITUAL-EDUCATIONAL WORK OF THE DEPARTMENT

Monthly on the days of spiritual enlightenment, department staff together with cadets spend hours studying the works and decrees of the President, Government decrees and the Laws of Uzbekistan. Also, the staff of the department according to the schedule conduct duty in the dormitories of cadets for the organization of round tables, meetings and lectures. During each educational cycle, on Wednesdays and Fridays, cadets are organized cognitive hours of philosophy, history and economic culture of Uzbekistan, hours of studying the state policy "National ideology: idea and basic principles". Communication skills during these classes play an important role in shaping the active position of students, developing and expanding their thinking. During the academic year, the department cadets actively participate in events organized on the basis of the plan for conducting spiritual and educational work of the department. Poetry evenings were organized, dedicated to the birthdays of Alisher Navoi and Bobur, where the cadets themselves conducted scripted performances. Independence Day of Uzbekistan, October 1 - Mentors and Teachers Day, October 21 - Day of giving the Uzbek language the status of the state language, December 8 - Constitution Day, January 14 - Day of Fatherland Defenders, as well as other days devoted to important events in our country held in the spirit of high patriotism.

During the academic year, the department staff, along with cadets, conduct excursions to the Bobur Complex, the Babur Drama Theater, the Constitution and **Memory Square**, the **Regional Museum of Regional Studies**, the **Regional Information Exchange Center**.

PARTICIPATION OF THE DEPARTMENT IN THE TREATMENT AND SHEFF ACTIVITIES OF THE INSTITUTE

The medical activity of the department is carried out in the territory of the mahalla committee "Shifokor" of the 3rd family polyclinic of the city of Andijan.

Medical activities are carried out mainly in the clinic in the form of daily consultations of patients, holding seminars and conferences among doctors, keeping monthly and annual reports of doctors. Employees of the department are actively involved in events held at the institute, the city and the region. They organize work to provide medical and methodological assistance, improve the sanitary and epidemiological situation, increase the level of medical culture of the population, organize round tables and meetings on topical issues. The staff of the department participated in the treatment and counseling of patients in Shakhrikhan, Andijan, Izboskan, Ergantepa, Pakhtaobod, Ulugnar, Boz and Asaka districts.
